Describe the concept. If already in use here or elsewhere, please indicate this.

Diversity-themed concert

How would this affect cultural change on campus?

Studies show that concerts are not only stress relieving, but the music also brings people together. This would be beneficial to the UW students as they would see that there are ways that they can connect with these different groups of people in a fun, stress relieving way.

For new ideas, how would you propose piloting this idea to see if it would work? If the idea is already in use at UW-Madison, how would you propose expanding or altering this program for greater impact?

Our idea on creating an activity that would help the UW climate would be to create a concert event similar to Revelry. At this concert, we would bring in famous celebrities from all different ethnic backgrounds. This way, students from various ethnic backgrounds could come together and enjoy the music.

What resources would be needed to implement your suggestion?
