

Important: COVID-19 Booster Shot

A booster is the best way to protect yourself and your community from COVID-19.

You need a booster if:

- 5 months have passed since your **2nd shot** of **Pfizer** or **Moderna**, or
- 2 months have passed since your **1st shot** of **Johnson & Johnson**.

Do you need your booster shot?

Make an appointment at University Health Services (UHS): go.wisc.edu/myuhscovidvax.

Did you already get your booster shot? If yes, please:

- share your information with UHS, or
- give UHS permission to access your Wisconsin Immunization Registry:
<https://covidresponse.wisc.edu/faq/i-was-vaccinated-off-campus-how-do-i-let-uhs-know/>.

Questions? Please contact your divisional disability representative or human resources office.
